Kjell Audun Hagen

Kjell Audun lives in the north west costal village of Alnes close to Ålesund. He has worked in the maritime industry for more than 20 years. He is addicted to large injections of nature adventures and is constantly dreaming of the next trip.

Steve Michael Røyset

Steve lives in Ålesund and works in the travel industry. When not taking travelers out on journeys he is searching for adventures in water and mountain sports. He enjoys nature's strong moments, with its constantly changing lights and strong contrasts.

If you consider to purchase any of the megaphotos on canvas please contact the reception at the entance for registration. Shipment will be arranged by seller.

CRAFTSMANSHIP

- **Mega Photos on Canvas, a craftsman production.**

Behind each production lies a considerable number of working hours – Waiting for the right moment takes time, sometimes a lot of time. We might have to return to the same spot many a time to take the perfect shot and in all kinds of west coast weather the year round.

- **Framed to perfection**

Every framework is hand made, adjusted to each specific canvas and stretched for optimal fit and tension. The wood is hand picked from the best materials, dried and laminated into a rigid and strong frame that will hold for decades.

- **Built to last**

Each canvas is carefully prepared and coated to get the right finish and to withstand exposure from sun, air humidity and the strain from being moved between locations.

All photos are signed by the artists and made in a limited numbered series of no more than 10.
